

## Career Objective

Aspiring Database Developer skilled in MySQL, MongoDB, and SQL optimization. Seeking an entry-level role to design, maintain, and optimize database systems for real-world applications.

## Education

**B.Sc. in Computer Science** July 2022 – Present Swami Ramanand Teerth Marathwada University, Nanded **CGPA: 1st Year – 9.00, 2nd Year – 9.25**  
**Relevant Coursework:** DBMS, SQL, Data Structures, Operating Systems, Web Development

## Skills

- **Databases:** MySQL, MongoDB
- **Backend Development:** Python, Django, Flask, REST APIs
- **Querying / Optimization:** SQL, Indexing, Joins, Views, Stored Procedures
- **Data Analysis:** Pandas, NumPy
- **Version Control:** Git, GitHub

**Soft Skills:** Problem-Solving, Analytical Thinking, Teamwork, Communication

**Interests:** Data Management, Query Optimization, Database Design

## Projects

### E-Journal Management System

2025 – Ongoing

- Designed and implemented MySQL database for research paper submissions, reviewer assignments, and publication tracking.
- Implemented stored procedures and optimized queries for faster data retrieval.
- Role: Database Backend Developer.

## Certifications

- Programming Certificates in C, C++, Java
- Python Full-Stack Development – Ongoing
- Hackathon Participation

## Hackathons & Problem Solving

- Participated in 2 hackathons, focused on database-driven applications.
- Solved 250+ coding problems on LeetCode and HackerRank (Python, SQL, C++).

## Extracurricular Activities & Achievements

- Active participant in database and programming clubs.
- Maintained 9+ CGPA throughout university.
- Volunteered in organizing technical workshops on database and Python.
